

# Quick Start Guide: Use Clarity, Clarizen or Planview PPM Pro in just 6 weeks

With Winmill PPM QuickStart, we start with a small group of users, typically one department. We get clients successfully using Clarity, Clarizen, or Planview PPM Pro in just 6-12 weeks!

Our QuickStart is a first phase focused on quick wins and user adoption.

## Who is it for?

- Looking for quick time to value, wants a 6-12 week timeline
- Looking for some customization, while staying 85-90% OOTB
- Has bandwidth for requirements and design sessions, and can project management support
- Open to future phases for integrations, additional functionality, new departments, etc.
- Needs more support and a longer timeline than the Rapid Prototype allows

## Offering Overview

We can deliver a QuickStart Implementation in 6-12 weeks, and most clients see it as a fast way to get ROI before moving on to additional or organizational rollouts in Phase 2.

### Start Kick Off:

- Onsite with 3-5 days of joint architecture and design (JAD) sessions (Remote options available).
- Determine detailed requirements.
- Write up our findings. Present them in a configuration design document.

### Build Custom Reports & Workflows:

- Do system testing.
- Turn the configured environment over for UAT.
- Make minor adjustments as needed.
- Deploy to production.

### Train-the-trainer sessions:

- A train-the trainer and/or end-user training.
- Basic Admin training.

## What's Included

<p><b>1</b></p> <p>Custom configuration based on Joint Architecture and Design sessions</p>	<p><b>2</b></p> <p>SOW with defined scope items, rather than a bucket of hours</p>	<p><b>3</b></p> <p>Train-the-trainer knowledge transfer for users and an administrator</p>	<p><b>4</b></p> <p>Fully functional PPM system</p>
